UI/UX Design: Figma, Canva, Wireframing, Prototyping, Mobile App UI Design

Python Development: Data handling, automation scripts, API usage

Version Control: Git, GitHub

Tools: VS Code, Chrome DevTools, Bootstrap, Tailwind CSS

Other Skills: Data Analysis, Excel, Digital Marketing, Problem-Solving

Soft Skills: Communication, Teamwork, Time Management, Attention to Detail

---

# PROJECT EXPERIENCE

## (Personal & Academic)

### Frontend Developer – Portfolio Projects

- Built responsive websites using HTML, CSS, JavaScript, and basic React components.
- Implemented mobile-friendly layouts and optimized page performance.
- Converted Figma UI designs into pixel-perfect web interfaces.

### UI/UX Mobile App Designer – Personal Projects

- Designed end-to-end mobile app screens focusing on simplicity and usability.
- Created wireframes, user flows, and interactive prototypes using Figma.
- Designed dashboards, landing pages, and simplified user onboarding screens.

### Python Developer – Automation & Data Scripts

- Developed simple Python scripts for data cleaning, file organization, and automation tasks.
- Used Python libraries such as pandas for handling data and basic reporting.
- Worked on mini-projects involving API requests and text processing.

### Digital Projects & Content Creation

- Designed brand graphics, UI mockups, and marketing visuals with Canva and Figma.
- Managed small social media pages and analyzed engagement metrics.
